

\$825,000 - 602 Cinco Terrace Lane, Fort Walton Beach

MLS® #1003220

\$825,000

4 Bedroom, 3.00 Bathroom, 1,989 sqft

Detached Single Family on 0.26 Acres

Meets and Bounds, Fort Walton Beach, FL

602 Cinco Terrace presents a rare waterfront opportunity with approximately 122 feet of protected bayou frontage while sitting well above the waterline, helping keep flood insurance costs significantly lower than many comparable waterfront properties. The home offers exceptional expansion potential with approximately 1,000 additional square feet ready to be incorporated into the existing footprint. A previously constructed and framed staircase location is already in place to seamlessly connect the upstairs living area to the unfinished lower level, creating a blank canvas for additional living space, guest quarters, an entertainment area, workshop, or custom design. Plumbing infrastructure for a future bathroom has already been planned with a drain line installed beneath the slab, simplifying future improvements without the need to disturb the concrete.

Inside, the home blends original character with modern updates. Fresh interior paint, updated lighting, and new luxury vinyl plank flooring throughout the living spaces, hallways, and bedrooms create a clean, contemporary feel while complementing the home's natural architectural features. Rich wood tones and stylish color-drenched interiors bring warmth and cohesion throughout the living spaces, creating an inviting waterfront atmosphere with timeless appeal. Popcorn ceilings were also removed throughout the home and garage in 2026, further enhancing the updated

presentation.

Beyond the cosmetic improvements, the property has undergone substantial functional upgrades focused on durability, efficiency, and long-term peace of mind. Hurricane shutters were added to the windows, while the original asphalt roof was replaced with a metal shingle roofing system designed for longevity and enhanced weather resistance. In 2025, all exterior doors were upgraded to hurricane-rated doors with warranty documentation available. The kitchen was also refreshed with a full suite of Bosch appliances, pairing modern performance with the home's cohesive design aesthetic. Additional improvements include professionally cleaned and resealed grout in the bathrooms, kitchen, breakfast area, and office, along with updated ceiling fans and fixtures throughout the home.

Outdoor living was thoughtfully expanded to maximize the waterfront setting. The upper deck and lower concrete patio were widened to create more usable entertaining space, while a screened room was added to the upper deck to provide a comfortable year-round outdoor retreat overlooking the bayou. The lower level was further enhanced with expanded concrete flooring supported by CMU retaining walls, adding flexibility for storage, workshop space, hobbies, or future buildout potential. A dedicated photography darkroom also adds a unique creative element rarely found in comparable properties.

The mature landscaping creates a layered waterfront setting that blends native Florida vegetation with ornamental and edible plantings. Established live oaks, palms, palmettos, pine trees, ferns, agave, and American beautyberry provide natural texture and privacy throughout the grounds. Flowering additions including crepe myrtle, hydrangea,

Rose of Sharon, fringe flower, amaryllis, caladium, fatsia, and crinum lilies introduce seasonal color and depth to the outdoor environment, while edible plantings such as banana trees, kumquat, fig, olive, and ginger further enhance the property's coastal garden atmosphere. A landscape irrigation system supports the grounds, and the home has also been converted from septic to county water and sewer for added convenience and reliability.

Positioned in Fort Walton Beach, the property offers convenient access to both Hurlburt Field and Eglin Air Force Base, making daily commutes efficient for active-duty military personnel, contractors, and civilian employees alike. White-sand Gulf beaches, waterfront dining, marinas, and the broader Emerald Coast lifestyle are all within close reach, allowing the property to balance privacy and waterfront living with accessibility to the area's most sought-after amenities.

602 Cinco Terrace delivers a compelling combination of protected waterfront frontage, elevation advantages, meaningful structural upgrades, future expansion flexibility, and a location that continues to remain highly desirable along the Emerald Coast. Buyers looking for a property that offers both immediate enjoyment and long-term potential will recognize the value, versatility, and lifestyle this waterfront home provides from the moment they arrive

Built in 1980
