Caliza Model. the open concept starts from the moment you walk into your home and are greeted by a flex room to one side and the formal dining room on the other side. As you take a short stroll in you will be immediately awe struck at the space of the oversized Kitchen that is over looking into the large great room. This area is big enough for everyone to pile in and avoid the elbow running but also give the cook of the family the ability to be apart of it all while still working away in the kitchen. The outdoor living space give you plenty of extra room to enjoy your yard. Your home is a split 4 bedroom with the owners suite being privately located off the kitchen and the 3 spare rooms being located on the other side of the home off the great room.
