NEW CONSTRUCTION TO BE BUILT! Built by Samuel Stevens & Associates, a well-established local custom builder with a proven reputation for quality construction and craftsmanship. The Contemporary floor plan offers 1,900 square feet with 4 bedrooms, 2 baths, a spacious 3-car garage that is oversized and features higher doors and ceilings to accommodate larger vehicles, and a covered rear porch. For buyers looking to downsize without downgrading, this thoughtfully designed floor plan offers a more manageable footprint without giving up quality, finishes, storage, or custom details. The open floor plan with high ceilings connects the kitchen, dining, and living areas, with cypress beams in the living area adding warmth and architectural detail.

Interior features include luxury vinyl plank throughout, custom-crafted cabinetry with soft-close doors and drawers, quartz countertops in the kitchen and bathrooms, tiled backsplash, custom all-wood closet shelving, designer lighting, Delta plumbing fixtures, and a professionally crafted trim package. Exterior features include professional landscaping, an irrigation system, stone entry way, and knee-high brick accent wall on the front that adds dimension and curb appeal to the home.
